

About AMW

Associated Motorways (Private) Limited, popularly known as AMW, has an illustrious history of over 70 years as the pioneer in Sri Lankan tyre industry. Over the decades, the Company has developed an unparalleled reputation for quality, reliability and customer orientation, making AMW a preferred vendor for many world-class clients.

Catering to a wide spectrum of consumer and industrial needs, AMW harnesses modern manufacturing methodologies and management techniques to produce world class polymer products including Industrial (resilient & pneumatic) tyres, light Pneumatic and agriculture tyres, Tyre retreading material, Rubber compounds and Industrial rubber products.

Operating under stringent quality controls, AMW's iconic production facilities in Kalutara, Sri Lanka, fully complies with ISO 9001 : 2008 Quality Management Systems as well as ISO 14001:2004 Environmental Management System and Bureau of Indian Standards (BIS) certification.

Proactively responding to the challenges brought about by COVID-19, AMW's manufacturing facilities are Certified by the Sri Lanka Standards Institute as a COVID-19 Safe Working Environment.

REACH compliant, and meeting international safety standards, AMW Products carry the guarantee of reliability. Keeping customer satisfaction as our highest priority, team AMW lives by the promise of "Going the Extra Mile" for our customers.

Our dedicated team, operating around the clock, promptly responds to the needs of our customers spanning across 14 countries and growing. AMW's premium clientele is ample evidence of its customer orientation, commitment to quality and product reliability.

Black Resilient / POB

Solid - Economy Range

Designed for light duty applications, the economy range delivers stable, consistent performance at a competitive price. Eco - Trac comes with a factory warranty of 900 hours.

Black **White** **Grey** Resilient / POB

Solid - Standard Range

Meant for regular applications, SoliTrac carries an excellent price to performance ratio. With a factory warranty of 1500 hours, SoliTrac tyres offer good steering stability and lower fuel consumption.

Black **White** **Grey**  Resilient / POB

Solid - Premium Range

Where the business requires continuous running for extended hours, carrying heavy loads, SoliMax is the preferred choice. The extra cushioning effect ensures longevity of the suspension while offering extra driver comfort. With a unique tread design that offers a stable foot print, SoliMax carries a warranty of 1500-2000 hours.

Black **White** **Grey**  Resilient / POB

Solid - Extra Premium

Certain industrial applications require tyres to operate under demanding ambient conditions. SoliMax Extra Premium is designed to offer dependable performance under high heat and high load conditions as well as applications requiring higher speed of material handling unit, SoliMax Extra Premium carries a warranty of 2000 hours.

Pneu-max
Pneumatic

Black White Grey

Pneumatic – Industrial Pneumatic

PneuMax Industrial Pneumatic tyres offer exceptional driver comfort as well as steering / cornering stability, especially under load. The unique compound formulation and tyre design minimizes heat build up, while maintaining Rolling Resistance at optimum levels.

Pneumatic – light Agriculture tyres

AMW produces a range of Light Agriculture tyres which are used in a variety of applications such as light tractors, lawn mowers and buggies etc.
